MISSISSIPPI RECOVERY

Siphon muddy waters away.

Stop wash water from flowing down a drain or away from your area by collecting the wastewater from pressure washing. Be fully in control of water flow with the optional water dikes and drain covers to stop water from flowing down a drain or away from your site. Comes standard with 50' feet of vacuum hose and a scupper head.

Features

- 3 stage vacuum motor delivers 100 CFM 100" sealed lift vacuum

IDENTIFYING KÄRCHER EQUIPMENT BY NAME

All Kärcher branded machines are named systematically so that every machine name explains what the product is. For example, all hot water pressure washer names start with HDS, while all cold water pressure washers names start with HD. Floor care product names range from a direct to indirect relation to the product, such as BV for Backpack Vacuum to KM for a Sweeper. Below is a chart to help with identifying Kärcher equipment by name.
