PRESSURE KING

Pressure Washers & Steamers Sales and Service

CARES.

Patient satisfaction is imperative to your hospital's success. We understand that creating a positive patient experience can increase your HCAHPS scores, so we're here to help. With Kärcher in your corner, every nook and cranny can be cleaned with ease and efficiency. Cleaning and disinfection is our specialty, we've developed a hospital-grade misting system specifically for high-touch points in all areas of your facility. Keep your staff and patients safe from HAIs with effective infection prevention and control.

“The transmission of many healthcare acquired infections (HAIs) is related to contamination of near-patient surfaces and equipment, all hospitals are encouraged to develop programs to optimize the thoroughness of high touch surface cleaning as part of terminal room cleaning at the time of discharge or transfer of patients.”

<https://www.cdc.gov/hai/toolkits/Evaluating-Environmental-Cleaning.html>

Use Kärcher Equipment to Clean & Disinfect Surfaces in:

- Lobby & Entry
- Administrative Offices
- Restrooms
- Patient Rooms
- Operating & Emergency Rooms
- Cafeteria & Kitchens
- Exterior/Loading Dock

KÄRCHER SOLUTIONS FOR HEALTHCARE

HCAHPS SCORES

“Patients’ perception of the cleanliness of their environment is more complicated than you might think. Your patients view cleanliness as a marker of safety and quality. They’re in an unfamiliar and scary place, and often, suffering physical pain. Patients need an environment that is emotionally soothing and promotes healing; if they see (or smell) something in the environment that makes them uneasy, they feel stressed and more negative about their experience.”

<http://www.myrounding.com/blog/improving-hcahps-cleanliness-scores>

LOBBY & WAITING AREAS

Efficient cleaning in the lobby and waiting areas allows successful facilities to provide an inviting environment for patients and incorporates the best practices of health and safety.

The Sensor S2 HEPA upright vacuum allows you to deep clean into carpet and remove dirt that can cause long-term damage, while the Kärcher PS 4/7 Bp Mister is specifically designed to reduce risks of HAIs by killing virus, bacteria, and mold. Mist VitalOxide on chairs, doors, handles, your front desk, or any high touch point in the lobby to quickly remove viruses and bacteria.

The compact BR 35/12 C Bp floor scrubber is a lightweight battery-powered scrubber that prevents slipping and leaves the floor dry immediately after cleaning. Use the Radiant floor machine with ORB technology to brighten stone floors, clean carpet, make tile & grout shine, simple to use. This machine is the jack-of-all-trades.

ADMINISTRATIVE OFFICES

The health and wellness of your employees is imperative to the health of the hospital. Our equipment lends a helping hand, making cleaning offices much more efficient.

The Lightning 2000 burnisher creates a consistent high-gloss shine on floors. Its powerful dust control system captures dust in an easy to remove paper bag. For productive vacuuming on carpet or hard floor surfaces, the Chariot 2 iVac 24 ATV stand-on vacuum cleaner allows maximum cleaning coverage in minimal time.

Kärcher's Clipper 12 extractor will clean even the dirtiest carpets with confidence and power. The user friendly design and durability makes this the perfect extractor for your hospital offices. The PS 4/7 Bp mister with Vital Oxide is a hospital grade disinfectant system. Spray Vital Oxide through the mister onto any surface to kill harmful bacteria and viruses.

RESTROOMS

Avoiding cross-contamination and cleaning high-touch areas are huge issues in restroom cleaning. Use Kärcher's equipment to remove soil and kill bacteria from all surfaces.

The SG 4/4 steam cleaner can remove fingerprints, grime, germs, and stubborn dirt without the use of chemicals. Use the variable control for steam and hot water. Kärcher's BR 30/4 C Bp compact floor scrubber performs impressively in hospital restrooms. It's as easy to use as an upright vacuum and allows you to return the area to service with clean and dry floors.

The NT 48/1 wet/dry vacuum cleaner quickly picks up water from restroom floors, leaving floors dry, to reduce slips and falls. The Compass 2 surface cleaning machine accurately dispenses cleaning solution, then rinses and vacuums the surface completely dry in less time than conventional cleaning methods.

CORRIDORS

Corridors are the central systems of a hospital. Keeping corridors cleaned can be a daunting task, but Kärcher makes it easy.

The Chariot 2 iScrub 20 Deluxe allows your cleaning crew to be highly productive, scrubbing 18,000 sq ft per hour. It boasts a 48" turning radius for optimum maneuverability in corridors of all sizes. Kärcher's B 40 W Bp with ORB technology provides a green cleaning solution for top-scrubbing and recoat programs, using less chemicals, water, energy, and labor.

Use the Chariot 2 iGloss stand-on burnisher for a brilliant shine. This machine will increase productivity and will allow you daytime cleaning ability. The BD 50/50 C Classic Bp walk-behind scrubber was designed with you in mind. It's slimline design, 13.2 gallon capacity, and quiet noise level allow for around-the-clock scrubbing.

PATIENT ROOMS

Patients want to see the efforts of your cleaning, while not being disturbed. Kärcher can help keep a highly clean environment.

Use the Puzzi 10/1 carpet extractor for a powerful, compact spray extraction. The adjustable handle and floor tool enables a quick cleaning and dries your carpet in a short amount of time. The Taz all-surface cleaning machine cleans tile & grout, wood, vinyl, concrete, epoxy, and other surfaces.

The BR 35/12 C Bp scrubber provides powerful scrubbing in small areas. Both solution and recovery tanks are easy to fill and clean for effective, hygienic cleaning in patient rooms. Use the PS 4/7 Bp mister to disinfect all surfaces, leaving Vital Oxide to dry. No wiping is necessary, allowing you to turn rooms faster and more germ free than ever.

OPERATING & EMERGENCY ROOMS

With a combination of Kärcher's scrubbers, vacuums, and steam cleaners, your operating & emergency rooms can be cleaned faster and safer.

The stand-on Chariot 2 iScrub 20 Deluxe scrubber exceeds all expectations. Scrub up to 18,000 ft²/hr with an on-board charger and optional chemical metering. Daytime cleaning is possible with this efficient machine. Kärcher's SG 6/5 steam cleaner sanitizes surfaces and high touch points with ease.

Kärcher's NT 68/1 wet/dry vacuum cleaner includes a self-adjusting squeegee assembly and an on-board tool storage compartment. With no-tip dumping, any user can be efficient and productive in your operating rooms. The BD 43/25 C Bp scrubber can efficiently maneuver between tight spaces and cleans without disruption.

CAFETERIA/KITCHEN

We know that you need to clean more than a few dirty dishes. Kärcher's pantry is filled with scrubbers, pressure washers, and specialty cleaners to keep your cafeteria floors safe.

Use the HD Wall Mounted cold water pressure washer to remove food particles during daily cleaning in your kitchen. Kärcher's BR 40/10 C Adv floor scrubber leaves your kitchen floors safe and dry with 100% pickup in the corners.

For tough everyday use, the BR 45/22 C Bp steerable, lithium-ion battery powered scrubber offers great results and productivity. The easy-to-use SG 6/5 is a single machine that is a steam machine and wet vacuum cleaner in one. Now you can easily disinfect kitchen surfaces, reducing the threat of foodborne bacteria in the hospital.

EXTERIOR/LOADING DOCK

The exterior and loading docks of a hospital must not only give a good first impression and build patient confidence, but also ensure that daily routines can be carried out safely and smoothly.

Easily keep walkways and entryways soil free with the Radius 280 Deluxe sweeper. It has quiet operation and provides outstanding performance on hard and soft surfaces. Use the KM 105/110 R Bp ride-on sweeper to clean parking garages and lots quickly and efficiently.

Use the Jarvis cold-water, gas powered pressure washer to easily remove soils from sidewalks, loading docks, and dumpsters. The cordless SG 1 C Bp gum remover blasts gum quickly. With no harsh chemicals, this machine ensures safety and convenience and can be used on stone, concrete, and even carpet.
